Asthmatic Kitty announces a new edition of *A Sun Came* the 1999 debut album by Sufjan Stevens. Widely acclaimed for *Michigan* (2003), and *Seven Swans* (2004), singer/songwriter Sufjan Stevens' first solo collection has been skillfully remastered, with two previously unreleased tracks and new art by Stephen Halker. Recorded on 4-track while still in college, *A Sun Came* first demonstrated Sufjan's eclectic instrumentalism- he plays over a dozen instruments here- noted production skills, and heartfelt songwriting. Though little known until listeners and reviewers discovered *Michigan* last year, *A Sun Came* foreshadows Sufjan's later work, and stands on it's own as an expression of his unique talents.

A stunning blend of 60's psychedelic pop influences with middle-eastern and east Indian musical touches and a trace of experimental noise, *A Sun Came* grips the listener from the very first notes and doesn't let go until you've reached the end of Stevens' 72 minute opus. -Opuzine
