At long last, an exhaustive compilation of B-sides, rarities, outtakes, and never before heard demos from the past 10 years of Low's career. Featuring **more than 53 songs assembled by the band themselves**, over 3 discs, this collection ranges from their very first bedroom recordings (1993) all the way through to vinyl-only cuts from their most recent CD, *Trust* (2003), and everything in the middle as well--all together consisting of almost **4 hours of music**.

Bound together with a fourth (extended length) DVD disc, featuring **all 11 of Low's videos, 3 live songs, and a series of documentaries by Marc Gartman**, this thing is a behemoth. Also included a very nicely designed 32-page booklet with song descriptions and commentary by the band, and it all comes in a pretty white and blue cardboard box.

From quiet to loud, from obscure to obtuse, from Jandek to Journey, from subpar to sublime... **10 years of Low, all in one place.**

SELLING POINT:

- Among the many rare tracks included on this release are **7 songs exclusive to the boxset** (disc 1: tracks 1, 2, 8; disc 2: tracks 9, 10; and disc 3 tracks: 9,10).
