Sleeping People is an instrumental band from San Diego, CA that formed in early 2002. They began playing shows by the end of that year as a trio with two guitars and drums. In August of 2003 they became a 4-piece with the addition of Kenseth Thibideau (**Pinback, Rumah Sakit**) on bass guitar. Scrapping most of the old material, they honed their sound to become a faster, stronger version of the previous line-up. They are currently writing songs for their debut album which is due to be released on Temporary Residence Ltd. in early 2005. Stay tuned.

Secret Fun Club is in the business of fashioning robots from sunlight. During down time, they mainline trucker-culture rock n' roll and Elvin Jones's left hand.

This split 7" is 10 minutes of instrumental heaviosity pressed on diamond-colored (aka clear) vinyl. It is very limited and should be bought sooner rather than later.
